

Change detail - Recommended Qualification Structure for Sub-structure Work Occupations (Construction) Level 3

This structure has been recommended by employers and stakeholders from the above occupational area for organisations to form the basis of academic capability and competence outcomes. Qualifications with a competence outcome at the above level must have units derived from the following National Occupational Standards (NOS) and consist of the mandatory/optional groups as stated for the individual option route.

MANDATORY (all option routes)

- VR209 v2 Confirm work activities and resources for the work
- VR210 v3 Develop and maintain good working relationships
- VR211 v2 Confirm the occupational method of work
- VR641 v2 Conform to general workplace health, safety and welfare

Ground Anchors Option Route (Total 5)

Mandatory

- VR517 v2 Stress and test ground anchors

Protection System Independent Verification Option Route (Total 5)

Mandatory

- VR764 v1 Testing and verification of protection systems for buildings against hazardous ground gases

Unit endorsements for Sub-structure Work Occupations Level 3

Where industry requests; qualifications can be endorsed to show an option route and the type of resources and/or activities that relate to the unit. Listed below are the endorsements that can apply for units derived from the following NOS.

NOS	Endorsement
VR764	Three of the following:
	Visual inspection
	Seam tests
	Flat area tests
	Ventilation and pressure monitoring

Note: Where industry requests an Awarding Organisation to further endorse a unit, the Awarding Organisation must first seek approval from the Standards Setting Body to ensure the endorsement is appropriate to the unit.

Note: Underpinning Operations withdrawn in December 2023 due to issues with Level dominance
